

We are going to practise taking numbers away.

Use a number line to help you take away these numbers.

$3 - 1 = \square$

$4 - 2 = \square$

$6 - 4 = \square$

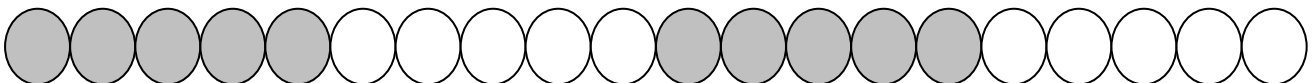

$7 - 2 = \square$

$9 - 1 = \square$

$5 - 5 = \square$

$6 - 5 = \square$

$8 - 4 = \square$

We are going to practise taking numbers away.

Use a number line to help you take away these numbers.

$12 - 3 = \square$

$15 - 2 = \square$

$14 - 4 = \square$

$17 - 2 = \square$

$18 - 1 = \square$

$15 - 5 = \square$

$11 - 6 = \square$

$18 - 9 = \square$
